

One Way Access Road Spikes

1WS-1Mtr

Description

The strongest mechanical one-way barrier on the market, Enforcer One Way Access Road Spikes Including Fixings ensures single direction access lanes are adhered to. It can be used to restrict access in entrances at car parks, factories and warehouses, hospitals, public centres and any facilities where direction of traffic needs control.

The rounded end caps ensure wheel damage and tipping wont occur. This one-way barrier is a long-term solution that doesnt require complex electronic systems and gates to control entrance.

Features

- Made from super tough heavy-duty steel.
- Designed to handle heavy vehicle traffic including large trucks.
- High visibility orange finish.
- Lightweight design.

Specifications

SKU	1WS-1Mtr
Length	1000 mm
