

Bollard Chain Mounting Bracket 114mm – Yellow

B114-CMB-Y

Description

Enforcer Bollard Chain Mounting Bracket 114mm – Yellow is a durable Y-style bracket designed to securely attach safety or barrier chains to 114mm bollards. Manufactured from galvanised steel with a high-visibility yellow powder-coated finish, it provides enhanced corrosion resistance and long-term outdoor performance.

Engineered for strength and simple installation, the bracket features four pre-drilled fixing holes for rivet attachment, making it suitable for car parks, warehouses, pedestrian control zones, and industrial sites. It offers a practical solution for creating flexible barrier systems between bollards.

Features

- Designed specifically for 114mm bollards.
- Made of galvanised steel for corrosion resistance.
- High-visibility yellow powder-coated finish.
- Ideal for attaching plastic or metal barrier chains.
- Suitable for indoor and outdoor applications.

Specifications

SKU	B114-CMB-Y
Size	60x55x50 mm
Thickness	2.75 mm
Weight	0.11 kg
Bracket Curvature	R57 (to suit Ø114mm bollard)
Material	Galvanised steel
Finish	Powder coated safety yellow
Colour	Safety Yellow
