

Bollard 114mm In Ground Hot Dipped - Galvanised

B114-IG-Gal

Description

These 114mm In Ground Hot Dipped Galvanised bollards are used to guide vehicle movement and secure your assets while allowing safe pedestrian access. Perfect for busy sites like carparks, sports arenas, and busy retail precincts.

Constructed from hot dipped galvanised steel that prevents rust and finished with a class 1 red reflective band, it also features a welded metal bollard dome cap to outlast plastic alternatives. This bollard is easily seen even in low light, making it ideal in all conditions.

Features

- Manufactured from hot dipped galvanised steel pipe.
- Strong metal bollard dome cap.
- Class 1 red reflective tape.
