

Bollard In Ground Removable Base 114mm

B114-IG-REM-BASE

Description

The Enforcer In-Ground Removable Bollard Base (114mm) offers essential flexibility and robust security for locations requiring controlled, temporary access. Expertly manufactured from hot-dipped galvanised steel, this durable bollard base is designed for long-term corrosion resistance and reliability in demanding Australian environments. Its hinged in-ground sleeve allows bollards to be conveniently removed or reinstated as needed, providing flexible and secure access control while enhancing workplace health and safety compliance.

Features

- Allows bollards (114mm diameter) to be easily installed and removed.
- Hot-dipped galvanised steel for rust prevention.
- Hinged In-Ground Sleeve.
