

Bollard 220mm In Ground Hot Dipped Galvanised

B220-IG-Gal

Description

Mark your boundaries and protect buildings, pedestrians and other assets with heavy duty bollards like Enforcers Bollard 220mm In Ground Hot Dipped Galvanised. This heavy and strong steel bollard, once securely set in concrete, can resist heavy vehicle impacts and protect vulnerable buildings, pedestrian walkways and other assets.

The 100% recyclable steel pipe bollard is hot dipped galvanised and finished in an attractive silver galvanised for rust resistance. A class 1 red reflective band ensures your bollard will be seen in all conditions, ensuring safety and protection around your business, home or facility.

Features

- Withstands from heavy cars, trucks, and forklifts.
- Manufactured from heavy duty steel pipe.
- Designed in Australia for Australian conditions.
