

Bollard 90mm In Ground Removable Base Only

B90-IG-REM-BASE

Description

Enforcer 90mm In Ground Removable Bollard Base Only ensures the safe storage of your bollards. Unused bollards can create trip hazards and lead to accidents if they aren't properly stored. Enforcer Bollard Bases can be installed in your storage room or facility to organise your bollards in a way that creates a safe workplace. The in ground bollard sleeve blends in when not in use.

Manufactured from reliable heavy duty steel pipe, Enforcer bollard bases are hot dipped galvanised steel to prevent corrosion and rust. Perfect for both indoor and outdoor use, the base plate is welded for strength.

Features

- Manufactured from reliable heavy duty steel.
- Perfect for both indoor and outdoor use.
- The in ground bollard sleeve blends in when not in use.
