

Bollard Bike Rack Surface Mounted Circle - Galvanised

BBR-SM-C-Gal

Description

The Enforcer Surface-Mounted Circle Bollard Bike Rack combines asset protection with practical bike parking in one smart solution. Constructed from durable, corrosion-resistant hot-dipped galvanised steel, this versatile bollard is specifically designed to secure bicycles safely and conveniently, while simultaneously protecting pedestrian areas or vehicle-free zones from unwanted traffic. Featuring highly visible reflective red tape, the bollard enhances safety and visibility, day or night. With a surface-mounted design and robust base plate, installation is quick, secure, and stable, saving valuable space in public areas, retail precincts, or commercial car parks.

Features

- Dual-purpose bollard and bike rack for enhanced functionality
- Strong hot-dipped galvanised steel construction for durability
- Highly visible with reflective red tape
- Surface-mounted for secure, stable installation
- Space-saving design for car parks and public spaces
