

# Bollard Flexible Sign Delineators - 1100mm High

## BFlex-SD-1100

### Description

Enforcers Bollard Flexible Sign Delineators 1100mm High is a versatile traffic management solution. It can be used as a permanent feature or temporarily to fit your needs due to the surface mounted feature that is easily removed. The flexible design gives way to impacts and rebounds to its original upright position.

The strong PVC construction ensures minimal damage is caused to vehicles during light impacts, perfect for busy shopping centre car parks.

### Features

- Manufactured from PVC.
- Flexible,simply bounces back after impact
- Designed in Austraila for Australian conditions.
- Easy to install.
