

Bollard Flexible Sign Delineators - 1350mm High

BFlex-SD-1350

Description

Enforcers Bollard Flexible Sign Delineators 1350mm High can be used as a signpost, to protect assets like buildings and machinery and to slow and guide traffic. It can be used mounted permanently or temporarily depending on your requirements.

The flexible design minimises serious and costly damage to vehicles if light impacts occur. It gives way when hit and rebounds to its original upright position. The strong PVC construction ensures minimal damage is caused to vehicles during light impacts, perfect for busy shopping centre car parks.

Features

- Manufactured from PVC.
- Flexible,simply bounces back after impact.
- Designed in Austraila for Australian conditions.
- Easy to install.
