

Bollard Flexible Rebound - Two Piece

BFlexi-2PC

Description

Enforcers Bollard Flexible Rebound Two Piece is made from high quality polyurethane and designed to flexible and bounce back after knocks, ensuring no damage is left to vehicles. Perfect for guiding traffic around worksites or for applications when you want to direct traffic or draw attention to boundaries without potentially causing damage if impacts occur.

Designed in Australia and made to withstand harsh Australian conditions, the Bollard Flexible Rebound Two Piece is designed to withstand impacts and bounce back to position without causing damage to cars.

Features

- Manufactured from durable Polyethylene (PE).
- Removable bollard post.
- High visibility red colour with white reflective tape and black rubber base.
