

Kerb Ramp Rubber Black End - 100mm High

BKRE-100

Description

Enforcer Black Kerb Ramp End Cap 100mm Height is built to be super durable and user friendly at the same time. The end cap is essential to prevent trip hazards and improve access. The portable design ensures it can be installed and relocated with ease. It keeps seamlessly with kerb ramps to complement the end of the ramp and provide a smooth transition. This prevents wheel damage and costly accidents. It can be used in parking lots, warehouses and anywhere where improved accessibility is needed. Suitable for commercial and residential settings.

The kerb ramp end cap is designed to fit with kerb ramps to reduce the risk of accidents. The highly durable rubber construction can perform in high traffic areas, can withstand vehicle traffic, and harsh weather. The rubber tread increases traction and safety for pedestrians.

Features

- Made of recycled rubber.
- Anti-slip design that absorb shock.
- End cap for kerb ramp 100mm high.
- Can be used in both commercial and domestic settings.
