

Bike Rack Circular In-Ground - Galvanised BR-C-IG-G

Description

The Enforcer Circular In-Ground Bike Rack (Galvanised) provides secure, robust, and stylish bicycle storage, specifically engineered for public and commercial environments. Constructed from heavy-duty structural-grade steel tubing, hot-dip galvanised for exceptional rust and corrosion resistance, this rack ensures reliable long-term performance, even in harsh Australian conditions. Its contemporary circular design enhances streetscapes and urban areas, while the integrated in-ground fixing rods provide maximum stability through secure concrete embedment. Ideal for public infrastructure, education facilities, transport hubs, commercial developments, and mixed-use precincts, this bike rack combines strength, aesthetics, and practicality.

Features

- Heavy-Duty In-Ground Installation.
- Made from structural-grade steel tubing.
- Hot-dip galvanised coating (HDG) delivers outstanding protection against rust and environmental wear.
- Modern Circular Profile.

Specifications

SKU	BR-C-IG-G
Diameter	48 mm
Wall Thickness	2.75 mm
Length	889 mm
Bottom Width	150 mm
Height	1038 mm (828 + 210 mm)
Anchor Rod	Ø12 x L150 mm
Colour	Galvanised
Material	Hot dipped galvanised steel
Warranty	12 months
