

Bike Rack Narrow Hoop Surface Mounted - Galvanised

BR-N-SM-G

Description

The Enforcer Narrow Hoop Surface-Mounted Bike Rack (Galvanised) is expertly designed for secure, durable, and space-efficient bicycle parking, specifically tailored to suit dense urban environments or confined spaces. Manufactured from robust, commercial-grade steel tubing with a thicker 3mm wall, this bike rack offers exceptional strength and durability, making it ideal for high-traffic public and commercial areas. The hot-dip galvanised finish ensures superior protection against corrosion, abrasion, and harsh Australian environmental conditions. Featuring a compact, precision-engineered 350mm width and secure triple-point mounting, installation is quick, reliable, and space-optimised, perfect for contemporary commercial, institutional, and civic projects.

Features

- Compact dimensions maximise bike storage in tight spaces.
- Made from steel tube providing superior strength.
- Hot-dip galvanised (HDG) finish offers outstanding resistance against corrosion.
- Contemporary urban design.
