

Bike Rack Narrow Hoop Surface Mounted Stainless Steel 304 Grade

BR-N-SM-SS304

Description

The Enforcer Narrow Hoop Surface-Mounted Bike Rack (Stainless Steel 304 Grade) combines exceptional strength, durability, and aesthetic appeal, providing a premium bicycle storage solution designed for contemporary urban and coastal environments. Crafted from high-quality Grade 304 stainless steel tubing with a robust 3mm wall thickness, this bike rack offers superior corrosion resistance and resilience against harsh weather, vandalism, and heavy pedestrian use. Finished with a sleek, polished architectural look, this narrow hoop design perfectly complements high-end architectural landscapes. Equipped with heavy-duty base plates and precision pre-drilled mounting points, it ensures secure, streamlined installation on concrete or hard surfaces, ideal for commercial precincts, public spaces, transport hubs, and waterfront developments.

Features

- Manufactured from Grade 304 stainless steel tube.
- High-quality polished finish provides a visually appealing aesthetic, suited for prestigious urban and coastal projects.
- Precision surface mounting.
- Stainless steel construction withstands harsh weather conditions and high pedestrian traffic.
