

Bike Rack Over-Bonnet Wall Mounted Galvanised

BR-OB-WM-G

Description

The Enforcer Over-Bonnet Wall-Mounted Bike Rack is a space-saving and secure bicycle storage solution, designed to optimise underutilised space in car parks, residential garages, and end-of-trip facilities. By mounting above vehicle bonnets, this rack eliminates floor clutter while providing a stable and secure bike storage option. Built from hot-dip galvanised steel, this weather-resistant and corrosion-resistant bike rack is suitable for indoor and outdoor applications. The dual-loop cradle design ensures enhanced bike stability, minimising tipping or damage during storage.

Features

- Space-saving over-bonnet design.
- Heavy-duty galvanised steel frame.
- Dual support cradle for bike Sstability
- Wall-mounted for easy access.
