

Bike Rack Over-Bonnet Wall Mounted - Galvanised and Powder Coated Black

BR-OB-WM-GB

Description

Enforcer Bike Rack Over Bonnet Wall Mounted Galvanised Black is a safe and effective bike rack that also frees up floor space, making it perfect as a bike parking solution in small spaces.

Crafted from heavy-duty galvanised steel with a sleek powder-coated black finish, our over bonnet bike rack safely stores up to two bikes off the ground. Designed specifically for Australian conditions, these racks are perfect for indoor or outdoor use and can be installed in carparks, garages, storage rooms, workplaces and can also be used privately to save space on balconies. They can even be installed on hallway walls in apartments.

Features

- Can hold upto 2 bikes.
- Utilizes space above car bonnet.
- Manufactured from heavy-duty steel pipe.
- Wheels and frame can be locked with rack.
