

Bike Rack Square Surface Mounted Galvanised

BR-S-SM-G

Description

The Enforcer Surface-Mounted Square Bike Rack (Galvanised) delivers secure, robust, and practical bicycle parking solutions designed specifically for urban and commercial spaces. Fabricated from structural-grade steel tubing and hot-dip galvanised to AS/NZS 4680 standards, this bike rack provides superior corrosion resistance and long-lasting durability for outdoor installations. Supplied with heavy-duty welded base plates, installation onto concrete or paved surfaces is fast, secure, and straightforward. Its compact, compliant dimensions of 850mm x 800mm suit standard public and commercial parking requirements, making it ideal for city streetscapes, transport hubs, educational facilities, and commercial developments.

Features

- Structural-Grade Steel Fabrication.
- Hot-dip galvanised finish ensures outstanding long-term protection against rust and corrosion.
- Pre-Fitted Base Plates.
- Compliant Urban Design.
