

# Bike Rack City of Melbourne Design Surface Mounted - Galvanised

## BR-SM-GAL-MC

### Description

The Enforcer City of Melbourne Design Surface-Mounted Bike Rack (Galvanised Steel) provides secure, durable, and compliant bicycle storage designed specifically to meet the City of Melbourne’s urban design standards. Manufactured from heavy-duty galvanised steel tubing, this bike rack combines robust performance and exceptional resistance to high-traffic use, rust, and weathering. Equipped with sturdy pre-drilled base plates for quick surface mounting, it offers efficient and reliable installation suitable for civil works, educational institutions, transport hubs, and commercial developments. Palletised and protected during transport, this bike rack delivers a practical, cost-effective solution for large-scale deployment and long-term outdoor use.

### Features

- Made from steel tube, ensuring superior strength.
- Treated with high-quality hot-dip galvanising (HDG), providing exceptional rust resistance, weather protection.
- Designed and built to comply specifically with City of Melbourne bicycle parking guidelines.

### Specifications

|                |                             |
|----------------|-----------------------------|
| SKU            | BR-SM-GAL-MC                |
| Diameter       | 48 mm                       |
| Wall Thickness | 2.75 mm                     |
| Width          | 850 mm                      |
| Height         | 850 mm                      |
| Curved Pipe    | ø25 x T2 mm                 |
| Base           | ø150 x T8 mm                |
| Colour         | Galvanised                  |
| Material       | Hot dipped galvanised steel |
| Warranty       | 12 months                   |
