

# Bike Rack City of Melbourne Design Surface Mounted - Stainless Steel 304 Grade

## BR-SM-SS304-MC

### Description

The Enforcer City of Melbourne Design Surface-Mounted Bike Rack (304 Stainless Steel) provides secure, practical, and stylish bicycle parking tailored specifically to comply with City of Melbourne standards. Constructed from dual-tube 304-grade stainless steel, this bike rack combines exceptional strength, durability, and corrosion resistance with a lightweight, manageable design ideal for easy installation. Pre-drilled Ø150mm x 6mm base plates facilitate rapid, secure surface anchoring, streamlining on-site setup, particularly for time-sensitive urban projects. Delivered palletised and professionally protected, this rack is perfectly suited for large-scale commercial, municipal, and government-backed developments requiring compliance, reliability, and aesthetic appeal.

### Features

- Dual-tube 304-grade Stainless Steel construction.
- Specifically designed to meet City of Melbourne specifications, ensuring compliance and suitability for civic, commercial, and government projects.
- Supplied with heavy-duty thick base plates pre-drilled for quick, efficient surface anchoring.
