

Bike Rack Vertical, Post - Black

BR-VM-B

Description

The Enforcer Vertical Mounted Bike Rack (Black) is designed to efficiently maximise bike parking in areas with limited wall space or where conventional mounting options aren't feasible. Crafted from high-strength carbon steel with durable powder-coated black finish. Its space-saving vertical design is ideal for commercial, residential, or public environments, effectively eliminating the need for costly custom framing or additional walls.

Features

- Durable carbon steel construction with powder coated black finish.
- Compact vertical design.
- Supplied with tamper-resistant bolts designed specifically to secure the rack to mounting posts.
