

# Bike Rack Wall Mounted Galvanised BR-WM-G

## Description

The Enforcer Wall-Mounted Bike Rack (Galvanised) is a compact, durable, and secure bicycle storage solution for public, commercial, and residential spaces. Its frame maximises space while providing sturdy and weather-resistant bike parking. Constructed from thick steel tubing with Ø12mm support rods, this rack is fully hot-dip galvanised (HDG) for superior rust and corrosion protection. Pre-fitted base plates and two protective plastic sleeves ensure quick, secure installation on concrete or masonry surfaces, making it ideal for both indoor and outdoor use.

## Features

- Complies with ASTM & car park standards.
- Space-efficient wall-mounted format.
- Manufactured from steel pipe.
- Heavy-duty hot-dip galvanised steel construction for rust prevention.
- Pre-fitted base plates for easy installation.
- Light weight easy to install.
