

# Bike Rack Wall Mounted Round 304 Grade Stainless Steel

## BR-WM-R-SS304

### Description

The Enforcer Wall-Mounted Round Bike Rack (304 Stainless Steel) is an elegant, space-saving bicycle storage solution ideal for compact urban, commercial, and residential settings. Crafted from high-quality 304-grade stainless steel, this bike rack offers superior corrosion resistance, ensuring durability and reliable performance both indoors and outdoors. Its compact, circular design features a polished finish, an integrated locking loop, and a visually appealing bike symbol cut-out, making it a stylish yet practical choice for garages, laneways, building façades, and confined spaces. Easy to install and requiring minimal maintenance, this rack is perfect for locations where space efficiency, aesthetics, and robust security are priorities.

### Features

- Manufactured from durable 304-grade stainless steel, providing exceptional corrosion resistance.
- Compact circular design allows convenient wall or vertical surface installation.
- Built-in secure locking hoop and attractive bike symbol cut-out provide practical and secure bike storage.
