

Bike Rack Wall Mounted Round Yellow

BR-WM-R-Y

Description

The Enforcer Wall-Mounted Round Bike Rack (Yellow) is a compact, robust bicycle storage solution designed specifically for areas with limited space, such as apartment blocks, end-of-trip facilities, car parks, and industrial environments. Manufactured from heavy-duty mild steel plate with an integrated sturdy handle, this bike rack is built for durability and daily use. Its dual protective coating—hot-dip galvanised followed by a high-visibility safety yellow powder coat—ensures exceptional corrosion resistance and visibility, enhancing safety and longevity. Equipped with four secure mounting points for quick and reliable wall installation, this rack is the perfect choice for builders and contractors requiring efficient installation and maximum durability.

Features

- Made from robust mild steel plate with a strong Ø18mm handle, providing outstanding strength, durability.
- Compact, minimalist wall-mounted design maximises available space.
- Hot-dip galvanised steel offers superior corrosion protection.
- Vibrant safety yellow powder-coated finish provides high visibility.
