

Bollard Square Removable Padlock 120mm In-Ground Galvanised

BS120-IG-REM-PL-G

Description

The Enforcer Square Removable Padlock Bollard (120mm In-Ground Galvanised) offers a durable and versatile security solution for vehicle access control, traffic management, and asset protection. Constructed from heavy-duty 120mm x 120mm steel with a 5mm wall thickness, it withstands vehicle impacts and harsh outdoor conditions. The removable in-ground design, paired with a padlock-ready locking system, allows for flexible access control. Finished with hot-dip galvanisation (HDG), it ensures superior corrosion resistance, making it ideal for commercial properties, loading docks, industrial sites, and high-security areas.

Features

- Heavy-duty 120mm square profile.
- Secure padlock-ready locking system.
- Full hot-dip galvanised protection.
- Removable in-ground system with base sleeve.
- Weather-resistant & low maintenance.
