

Bollard Square Surface Mounted 120mm Galvanised

BS120-SM-G

Description

The Enforcer Square Surface Mounted Bollard (120mm Galvanised) is a heavy-duty, fixed security solution designed to protect assets, infrastructure, and high-traffic areas from vehicle impact and unauthorised access. Built from reinforced 120mm x 120mm steel with a 5mm thick wall, it offers exceptional strength and durability. The 220mm x 220mm x 8mm base plate ensures a stable surface-mounted installation on concrete, asphalt, or solid ground. Fully hot-dip galvanised (HDG) to AS/NZS 4680 standards, it provides maximum corrosion resistance, making it ideal for outdoor and coastal environments. This low-maintenance bollard enhances site safety and access control.

Features

- 120mm heavy-duty square profile.
- Reinforced surface mounting base.
- Full hot-dip galvanising (HDG) for superior corrosion protection.
- Highly durable for long-term security.

Specifications

SKU	BS120-SM-G
Dimension	120 x 120 mm
Height	1000 mm
Wall Thickness	5 mm
Weight	31.8 kg
Colour	Galvanised
Material	Hot dipped galvanised steel
Sleeve Base	220 x 220 x T8 mm
