

Traffic Cone 450mm

BTC760

Description

The Enforcer 450mm Traffic Cone is a compact, highly visible, and durable road safety solution, designed for traffic management, hazard marking, and pedestrian control. Whether used for construction sites, roadworks, warehouses, car parks, or public spaces, this lightweight yet sturdy safety cone ensures effective traffic redirection and workplace safety compliance.

Manufactured from premium-grade PVC, this cone is UV-resistant, weatherproof, and impact-resistant, making it ideal for both indoor and outdoor use. Its high-visibility design ensures clear visibility in low-light and high-traffic areas, helping to prevent accidents and improve overall safety.

Features

- Flexible and made of PVC.
- UV stabilized material.
- Durable black rubber base.
