

Bollard Parking Space Protectors - Padlock

Bparking-M-PL

Description

The Enforcer Parking Space Protector Bollard (Padlock-Compatible) provides robust, highly visible protection against unauthorised parking, ensuring reserved spaces remain secure. Expertly crafted from heavy-duty 3mm thick steel plate, this bollard features a fold-down design secured with a padlock (padlock not included), offering practical, user-friendly access control. Finished in safety yellow, with dual hot-dip galvanised and powder-coated protection, it ensures excellent visibility, durability, and corrosion resistance—perfect for Australian outdoor conditions. Its compact tapered design (195mm top width, 295mm bottom width) offers stability without compromising space, making it ideal for high-density car parks, commercial areas, residential complexes, and private parking facilities.

Features

- Heavy-duty steel plate construction.
- Simple fold-down mechanism and secured with a padlock
- Dual protective coating (hot-dip galvanised plus safety yellow powder coat) maximises visibility, reducing accidental impacts in busy car parks.
- Tapered compact design provides excellent stability and minimal space occupation.

Specifications
