

Crowd Control Barrier Orange

CCB-O

Description

Enforcer Crowd Control Barrier Orange can be used indoors and outdoors to guide and manage high foot traffic and crowds. These durable and easy to assemble barriers are made to withstand long term heavy use and are perfect for events like concerts, sporting and festivals to ensure public safety and create manageable boundaries between pedestrians and hazards. They can also be used to create boundaries on construction sites and in warehouses.

Manufactured from galvanised steel and powder coated in safety orange, our barriers perform in any weather condition and resist rust and corrosion.

Features

- Powder Coated orange for high visibility.
- Easy to assemble and disassemble.
- Can be used indoors and outdoors.
