

Convex Mirror Orange - 1000mm

CM-1000

Description

Enforcer Convex Mirror 1000mm is our biggest convex mirror available. Convex mirrors help to reduce accidents and increase safety around your building, carpark or facility.

The convex design maximises visibility and eliminates blind spots by creating a wider radius of vision. Perfect for hazardous corners to enable vehicles and pedestrians to see each other coming. The orange visor also increases visibility and reduces distractions from sun glare.

Features

- Manufactured from tough polycarbonate.
- High impact safety orange visor to reduce sun glare.
- Designed for indoor or outdoor.
- Mounting bracket included.
