CONVEX MIRROR BLACK - 600MM

- Manufactured from tough polycarbonate
- Black visor to reduce sun glare
- Designed for indoor or outdoor
- Mounting kit included (pole and wall)
- Installation Service is available

Convex mirror are extremely durable and weather-proof. Black visor which reduces sun glare, and keeps images clear even in the rain. Poll mounting brackets are included and can be easy installed or adjusted when needed.

Convex mirrors are designed for indoor or outdoor uses, to provide a wider vision to reduce blind spots, in areas like car parks or factories where view is limited, and vehicles or pedestrians are likely to appear.

Suited to use in car parks, exit/entry point, factor lane ways, mining safety, railway stations and other public places.

Strong & Durable
