

Convex Mirror Black - 600mm

CM-600-B

Description

Enforcer Convex Mirror Black 600mm with mounting kit is an essential tool to increase safety around your facility. Enforcer convex mirrors help to reduce accidents and increase safety around your building, carpark or facility and can be used at stations, around public transport bays, childcare centres and public facilities, warehouses, factories and even private driveways and laneways.

By creating a wider field of vision, convex mirrors help to eliminate blind spots and reduce accidents. Enforcer convex mirrors are high quality and produce clear and crisp images. Perfect for hazardous corners to enable vehicles and pedestrians to see each other coming.

Features

- Manufactured from tough polycarbonate.
- Black visor to reduce sun glare.
- Designed for indoor or outdoor.
- Mounting bracket included.
