CONVEX MIRROR 800MM

- Manufactured from tough polycarbonate
- High impact safety orange visor to reduce sun glare
- Designed for indoor or outdoor
- Mounting kit included (pole and wall)
- Installation Service is available

Convex mirrors are extremely durable and weather-proof. High visibility orange visor which reduces sun glare, and keeps images clear even in the rain. Pole mounting brackets are included and can be easily installed or adjusted when needed.

Convex mirrors are designed for indoor or outdoor uses, to provide a wider vision to reduce blind spots, in areas like car parks or factories where view is limited, and vehicles or pedestrians are likely to appear.

Suited to use in car parks, exit/entry point, factory lane ways, mining safety, railway stations and other public places.
