

Convex Mirror Orange - 800mm

CM-800

Description

Enforcer Convex Mirror 800mm with mounting bracket is a high-quality mirror to increase visibility. Convex mirrors help to reduce accidents and increase safety around your building, carpark or facility and can be used at stations, around public transport bays, childcare centres and public facilities, warehouses, factories and private laneways.

The convex design maximises visibility and eliminates blind spots by creating a wider radius of vision. Enforcer convex mirrors are high quality and produce clear and crisp images. Perfect for hazardous corners to enable vehicles and pedestrians to see each other coming.

Features

- Manufactured from tough polycarbonate.
- High impact safety orange visor to reduce sun glare.
- Designed for indoor or outdoor.
- Mounting bracket included.
