

Quarter Dome Mirror -600mm

CM-QD-600

Description

The Quarter Dome Mirror 600mm is a fully reflective mirror crafted from durable acrylic with black rubber edging. Acrylic is an excellent choice for indoor fixtures and tools due to its strength, scratch resistance, and lightweight nature, making it easy to deploy in various indoor locations.

Designed for discreet placement in interior spaces, this mirror allows for optimal visibility of floor areas. It is commonly installed in room corners to maximise viewing coverage and can also be used at the ends of corridors, passageways, or in indoor two-way traffic zones.

Features

- Made of durable, scratch-free acrylic.
- Cost-effective means of monitoring.
- Can be used in room corners.
- Light and hassle-free installation.
