

Column Protector Plastic Guard - Fits 250mm

CPC-61-250

Description

Enforcer Column Protector Guard Fits 250mm provides a tough physical barrier to absorb impacts and scrapes to factory and warehouse columns. Perfect for use around loading docks and other areas where forklifts and other machinery may scrape columns.

Crafted from low-density polyethylene, our column protector guards absorb impacts and scrapes from machinery and help to protect against costly damage to columns and poles. Made in a bright safety yellow colour, the protector enhances visibility and awareness of columns.

Features

- Made of LDPE with black strap.
- High visible safety yellow.
- Light weight and easy to handle.
- Ideal for use in industries,warehouse.
- Designed in Australia for Australian conditions.
