

Intercom Bollard Post - 165mm Hot Dipped Galvanised

CRB-165-G

Description

Enforcers Intercom Bollard Post 165mm Hot Dipped Galvanised allows you to manage vehicle access. It can be used in commercial, industrial and residential settings. Intercom Bollard Posts can be used at carpark entranceways to prevent unauthorised parking or even to designate pedestrian walkways.

The Intercom Bollard Post 165mm Hot Dipped Galvanised is built to last and provides superior resistance to rust and corrosion. The fully welded base plate ensures your bollard is safe and secure once attached to a concrete surface.

Features

- Made of high-quality steel for durability and longevity.
- Easy to install and maintain.
- Card reader allows authorized personal to easily access the restricted area.
- Essential for facilities that require controlled access.
