

Intercom Bollard Card Reader Head Large - Yellow

CRB-H-L-Y

Description

The Enforcer Large Intercom Bollard Card Reader Head (Yellow) offers secure, durable housing for larger access-control devices, including dual readers and intercom/keypad units. Constructed from 3mm hot-dip galvanised steel with a yellow powder-coated finish, it ensures superior strength, weather resistance, and visibility. With a spacious recessed mounting area (150mm x 110mm), it accommodates larger-format security systems. Ideal for commercial, industrial, and high-traffic environments requiring reliable access control protection.

Features

- Large-capacity enclosure.
- Reliable performance in all weather conditions.
- Compact & versatile housing.
- Heavy-duty steel construction with hot-dip galvanised (HDG) finish.
- High-visible powder-coated safety yellow finish.
