

# PRODUCT SPECS

Product Code:	DBR-100150
Diameter:	1000mm
Height:	150mm
Width:	150mm
Weight:	13kg
Finish:	Black

## DOCKING BUMPER - BLACK RUBBER

- Dock Bumpers are manufactured from fiber reinforced prime rubber containing nylon and polyester.
- All models have predrilled, countersunk mounting holes for easy installation, and are drilled to accept anchor bolts.
- Appropriate for outdoor or indoor protection.
- For commercial loading docks, warehouses, parking garages, and marinas.
- For vehicles such as tow trucks, trailers, and heavy-duty construction equipment.
- In-plant wall protection from forklifts and other material handling vehicles.

Docking bumpers protect the wall of your loading dock from damage.

Loading dock bumpers are a cheaper and easy way to preserve the edge of your loading dock from low trucks and forklift damage.

Loading dock bumpers can also be used inside your warehouse as wall protection from forklifts and other material handling equipment.

Strong & Durable
