

Drive Safely Sign 1200x300mm, (corflute)

ECT284-18H

Description

Enforcers Drive Safely Sign 1200x300mm, (corflute) is constructed from a corrugated polypropylene that is durable and well-suited to tough environments like building, construction and road work sites. It is suitable for short to medium term usage and can withstand the outdoors.

The Drive Safely sign is a substantial 1200mm x 300mm and designed in high contrast safety colours to ensure awareness of hazardous driving conditions. It effectively communicates to oncoming pedestrians and motorists, ensuring they can take the appropriate care by slowing down and avoiding costly damage.

Features

- Construction and road work sites.
- It is suitable for short to medium term usage and can withstand the outdoors.
- It effectively communicates to oncoming pedestrians and motorists.
- Straight forward usage and installation.
