

End Road Work Sign 600x600mm, (Corflute)

ECT284-29H

Description

The End Road Work Sign 600 x 600mm (Corflute) is a lightweight, durable traffic management sign designed to clearly indicate the end of temporary roadwork or construction zones. Manufactured from high-quality corflute, this sign provides excellent visibility while offering a cost-effective solution for temporary traffic control. Ideal for roadworks, civil projects, construction sites, and maintenance operations, it helps motorists safely transition back to normal road conditions.

Features

- Manufactured from durable, lightweight corflute for temporary traffic management applications.
- Clearly communicates the end of roadwork zones to motorists.
- High-visibility design improves road safety and driver awareness.
- UV-resistant print helps maintain visibility in harsh Australian conditions.
