Product Spec Sheet

Reducing Short Tee

ER101R

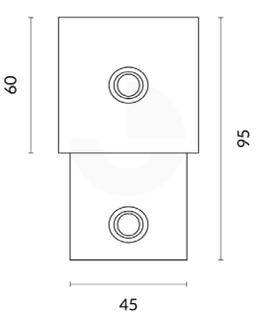

Description

The Enforcer Reducing Short Tee is a heavy-duty rail fitting designed to create a secure T-shaped connection between rail sections of different sizes within modular Enforcer Rail systems. Its reducing configuration allows a smaller rail section to connect with a larger rail, providing greater flexibility when designing and assembling custom handrail and barrier systems. Ideal for industrial and commercial applications where reliable connections are essential.

Features

- Reducing Tee design for connecting rail sections of different diameters.
- 90-degree T-shaped connection for flexible modular configurations.
- Heavy-duty construction for commercial and industrial environments.
- Compatible with Enforcer Rail components and modular fittings.
- Supports secure alignment and stability of connected rail sections.

Specifications

SKU	ER101R
Diameter	60 mm
Reducing Diameter	45 mm
Height	95 mm
Thickness	5 mm
Weight	0.41 kg
Material	Hot Dipped Galvanised Steel
Warranty	12 Months
