Product Spec Sheet

Long Tee

ER104

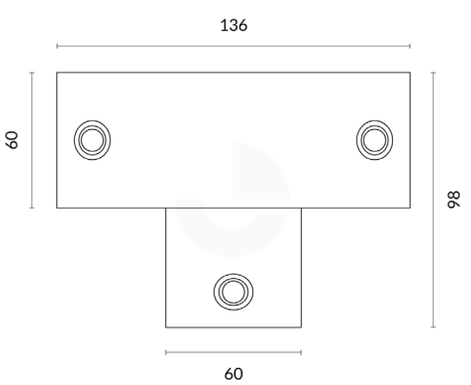

Description

The Enforcer Long Tee is a heavy-duty rail fitting designed to create secure T-shaped connections within modular Enforcer Rail systems. Its extended configuration provides a strong connection point between horizontal and vertical rail sections, making it suitable for creating customised handrail, safety barrier and protective rail layouts. Designed for demanding commercial and industrial environments, the Long Tee helps provide a reliable and stable modular rail connection.

Features

- Heavy-duty construction for demanding commercial and industrial environments.
- Long Tee design for secure 90-degree T-shaped rail connections.
- Extended configuration for flexible rail system layouts.
- Supports stable alignment of connected rail sections.
