

Wall Flange / Wall Plate

ER131

Description

The Wall Flange / Wall Plate for Enforcer Rail is designed to provide a secure fixing point for rail systems when mounting directly to walls or vertical surfaces. Ideal for access control, pedestrian safety, and asset protection, this component ensures a stable and professional installation in commercial and industrial environments. Built for durability and ease of use, it supports long-term performance in high-traffic areas.

Features

- Manufactured from Hot Dipped Galvanised Steel for strength and reliability.
- Ensures strong connection between rail and wall for structural integrity.
- Wall-mounted design for efficient and professional installation.
- Pre-drilled fixing points simplify setup and reduce installation time.

Specifications

SKU	ER131
Diameter	50 mm
Length	113 mm
Width	113 mm
Height	59 mm
Thickness	5 mm
Weight	0.72 kg
Material	Hot Dipped Galvanised Steel
Warranty	12 Months
