

Clamp on Tee

ER135

Description

The Clamp On Tee for Enforcer Rail is designed to create strong, reliable 90-degree connections within modular rail systems. Ideal for joining horizontal and vertical rails, this fitting allows for efficient assembly without welding or complex fabrication. Built for durability and ease of installation, it is a key component for constructing safety barriers, pedestrian control systems, and asset protection structures in commercial and industrial environments.

Features

- Manufactured from Hot Dipped Galvanised Steel for superior strength and durability.
- Enables secure 90-degree connections between rails.
- Corrosion-resistant finish for long-term indoor and outdoor use.

Specifications

SKU	ER135
Diameter	50 mm
Length	80 mm
Width	60 mm
Height	110 mm
Thickness	5 mm
Weight	0.55 kg
Material	Hot Dipped Galvanised Steel
Warranty	12 Months
