

Split Clamp on Tee

ER136

Description

The Split Clamp On Tee for Enforcer Rail is designed to provide a strong and versatile 90-degree connection within modular rail systems, with the added benefit of a split design for easy retrofitting. Ideal for installations where rails are already in place, this fitting allows for quick attachment without dismantling existing structures. Built for durability and efficiency, it is perfect for safety barriers, pedestrian control systems, and asset protection in commercial and industrial environments.

Features

- Manufactured from Hot Dipped Galvanised Steel for superior strength and durability.
- Split design allows installation onto existing rails without disassembly.
- Provides secure 90-degree (tee) connections between rail sections.

Specifications

SKU	ER136
Diameter	50 mm
Length	80 mm
Width	60 mm
Height	100 mm
Thickness	5 mm
Weight	0.78 kg
Material	Hot Dipped Galvanised Steel
Warranty	12 Months
