

Gate Hinge

ER140

Description

The Gate Hinge for Enforcer Rail is designed to provide a strong, reliable pivot point for gate systems within modular rail setups. Engineered for smooth operation and long-term durability, this hinge ensures gates open and close efficiently while maintaining structural integrity. Ideal for access control, pedestrian safety, and restricted area management, it is a critical component for professional commercial and industrial environments.

Features

- Manufactured from heavy-duty steel for superior strength and durability.
- Suitable for use with self-closing and manual gate systems.
- Provides a secure and stable pivot point for gate operation.
- Built to withstand frequent use and demanding conditions.

Specifications

SKU	ER140
Length	113 mm
Width	58 mm
Height	60 mm
Thickness	5 mm
Weight	0.22 kg
Material	Hot Dipped Galvanised Steel
Warranty	12 Months
