

Sleeve Joint

ER149

Description

The Sleeve Joint for Enforcer Rail is designed to provide a strong and reliable inline connection between two rail sections, creating a seamless and secure extension within modular rail systems. Ideal for handrails, safety barriers, and pedestrian control applications, the sleeve joint ensures structural integrity while maintaining a clean, professional appearance. Manufactured for durability and easy installation, it is suited to demanding commercial, industrial, and public environments.

Features

- Manufactured from heavy-duty steel for superior strength and durability.
- Creates secure inline connections between rail sections.
- Provides a strong and stable joint without compromising structural integrity.
- Ideal for extending handrails, guardrails, and safety barrier systems.

Specifications

SKU	ER149
Diameter	60 mm
Length	100 mm
Thickness	5 mm
Weight	0.52 kg
Material	Hot Dipped Galvanised Steel
Warranty	12 Months
