Product Spec Sheet

Mesh Panel Clip Double

ER171

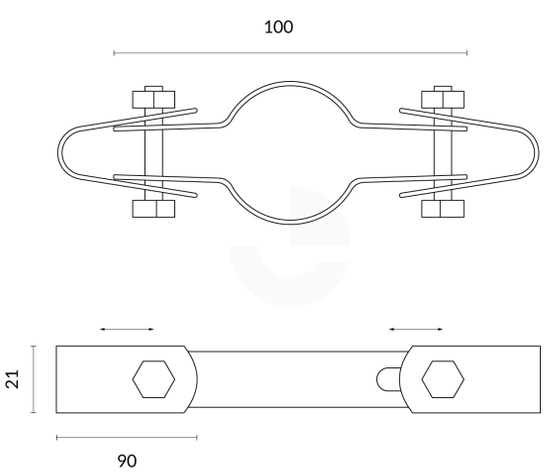

Description

The Mesh Panel Clip Double for Enforcer Rail is designed to provide a secure and reliable connection between mesh panels and Enforcer Rail systems. Featuring a double-sided configuration, this fitting is ideal for joining and securing mesh panels within protective barriers, safety enclosures, and controlled-access areas. Built for durability and efficient installation, the Mesh Clip Double provides a practical solution for commercial, industrial, warehouse, and public environments.

Features

- Manufactured from durable materials for reliable long-term performance.
- Double-sided configuration provides secure attachment for adjoining mesh panels.
- Helps create strong and stable mesh barrier structures.
- Ideal for connecting mesh panels within safety and security enclosures.
- Helps maintain panel alignment and structural stability.
