

DDA-751 Assist Saddle Fitting with Swivel- 48mm

ER751

Description

The DDA-751 Assist Saddle Fitting with Swivel – 48mm is engineered to provide flexible and supportive connections within Enforcer Rail systems, particularly in applications requiring compliance with accessibility standards. Featuring a swivel design, this fitting allows for adjustable angles, making it ideal for handrails and assist rails in DDA-compliant installations. Built for strength, versatility, and ease of installation, it is a reliable solution for commercial and public environments.

Features

- Manufactured from Hot Dipped Galvanised Steel for long-lasting durability.
- Swivel function allows for adjustable angles to suit various installations.
- Provides secure and stable rail support for user safety.
- Clamp-on design enables quick installation without welding.
