

End Stanchion w/ Base Fixing Plate - 30-45deg - Gal/Yellow ERK-EP-G1

Description

Enforcer Rails End Stanchion (Rise) with Straight Angle Base Fixing Plate 30-45deg offers reliability for various handrail structures. Featuring an adjustable base fixing plate to adapt to unique surfaces securely, the galvanised steel construction further enhances the versatility of these preassembled stanchions. Our stanchions are perfect in tough environments like construction sites and industrial facilities where worker safety is paramount. They can also be used to enhance the safety of events by providing secure infrastructure to zone areas and manage crowds.

Our stanchion is made from high-quality galvanised steel that ensures longevity in harsh environments like outdoor areas and factories. Being corrosion-resistant, it can be used indoors or outdoors in any weather without compromising on performance or safety.

Features

- Rails End Stanchion (Rise) with Straight Angle Base Fixing Plate 30-45deg offers reliability for various handrail structures.
- Featuring an adjustable base fixing plate to adapt to unique surfaces securely.
